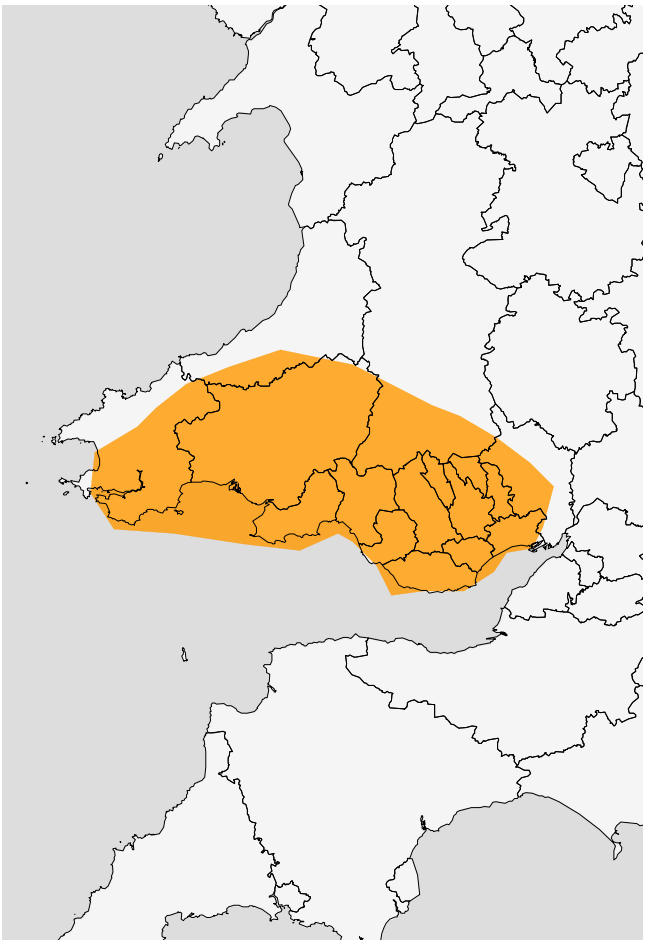
Amber warning
Rain

Between
06:00 Fri 12 Oct 2018 and
18:00 Sat 13 Oct 2018



Storm Callum bringing periods of heavy rain during Friday and continuing into Saturday - particularly over south facing hills.

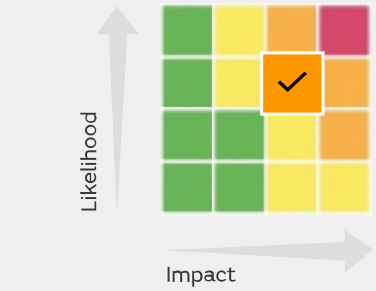
What to expect

- Spray and flooding probably leading to difficult driving conditions and some road closures
- Delays and some cancellations to train and bus services are likely
- Fast flowing or deep floodwater is likely, causing danger to life
- Homes and businesses are likely to be flooded, causing damage to some buildings
- A good chance some communities cut off by flooded roads
- Power cuts and loss of other services to some homes and businesses likely

Further details

As Storm Callum passes to the northwest of the UK, a period of heavy rain will affect South Wales during Friday, with further spells of persistent and heavy rain at times during Saturday. Rainfall totals will reach 40-80 mm widely with 120-160 mm likely over the high ground exposed to the south and south west.

The rain is expected to be accompanied by strong winds, which when combined with high tides may lead to some coastal impacts due to large waves. In addition, leaves and twigs, brought down by the wind, could block drains and culverts, increasing the likelihood of flooding.



Medium likelihood of medium impacts

Issued at 10:25 Thu 11 Oct, 2018
